

## *Implementing:* School #1—Preservice Teacher (mixed gender school)

- School not well resourced
- Preservice teacher teaching chemistry lesson
- Using technology in the lesson to clarify, emphasize and conclude; using PC and LCD projected on wall, and then pre-powered PC alone when power went off

## *Implementing:* School #2—Inservice Teacher (boys only school)

- School fairly well resourced
- Inservice teacher teaching physics lesson
- Using downloads from Internet and engaging students in peer learning

# *Implementing:* School #2--Inservice Teacher

# *Implementing:* School #2--Inservice Teacher

## *Implementing:* School #3—Inservice Teachers (girls only school)

- School fairly well resourced
- Inservice teachers teaching mathematics and biology lessons
- Using resources on CD to present information and tasks for students to work on; asking questions and seeking explanations about material
